Message from the QRS 2018 General Chairs

It is our great pleasure to welcome you to the 18th IEEE International Conference on Software Quality, Reliability, and Security (QRS 2018) sponsored by the IEEE Reliability Society, which will be held on July 16–20, 2018 in Lisbon, Portugal. On behalf of the Organizing Committee of QRS 2018, we would like to express our cordial welcome and utmost respect to all participants, presenters, authors and contributors.

QRS has served as an outstanding forum for researchers to present new results and learn about recent advances in quality assurance, reliability, and security. Over a thousand scientists and engineers attended the three recent conferences in Vancouver (2015), Vienna (2016), and Prague (2017). We anticipate another successful conference in Lisbon in 2018. This year we shed specific light on uncertainty in an evermore engineer-dependent world as well as technical debt and how to address both by constructive and analytical methods and means.

We extend sincere thanks to the IEEE Reliability Society, Organizing Committee, and Technical Program Committee for making this event possible.

Yuanshun Dai

Professor

University of Electronic Science

and Technology of China
